BUILDING ON DIFFICULT & SLOPING SITES MADE EASY

breezewayhouse is well experienced in designing unique personalised homes on all different landscapes. Our homes not only create a wonderful living environment for families, but also serve as an excellent investment opportunity.

Unlike most companies, breezewayhouse is focused on designing a home that best suits your location. We understand the importance of creating harmony between a building and its natural environment. This knowledge allows us to achieve - well designed, quality homes on difficult and sloping sites.

5 beds 4 baths 2 living 2 cars ↔ 17m

A spectacular Hampton's-style home built for a luxurious lifestyle. This was the clients' dream home and had to be meticulously designed to correlate with the block's side and upward slope.

4 beds 3 baths 3 living 2 cars ↔ 10m

A stunning investment property on a narrow, upward sloping block. The home has a luxurious feel as you are greeted by a grand staircase leading to a beautiful open living/dining area connected to a rear deck.

5 beds 3 baths 2 living 2 cars ↔ 10m

An excellently designed family home that makes the most of its location. This home has been meticulously designed to have a spacious and homely feel despite it's narrow width.

4 beds 4 baths 2 living 2 cars ↔ 28m

A grand hampton's style, Queenslander with large comfortable living. This home design has a wonderful open feel that produces a refreshing living environment.

4 beds 3 baths 1 living 2 cars ↔ 10m

A spacious residence designed to fit a narrow, sloping block. The difficult nature of the block subjected to flooding presented itself as an opportunity in disguise, allowing the design to maximise the benefits...

5 beds 2.5 baths 2 living 2 cars ↔ 13.5m

An excellent family home design with a perfect balance of entertainment and family privacy. Downstairs is the heart of the home with a grand open-plan living connected to a large alfresco.
